Profile

I am a final year Software Engineering student with a passion for learning, looking to reach my full potential professionally and personally. I am Proficient in various programming languages and tools such as Java, Python, JavaScript, Git, and SQL. I am a creative and detail-oriented person with a passion for learning and strong hardware and software technical skills. I have demonstrated the ability to effectively self-manage during independent projects and collaborate as part of a productive team.

Education

BEng, York University, Toronto, ON

September 2018 — Present

BEng in Software Engineering with specialization in Computer security by 2023

Relevant Coursework: Software Engineering Requirements, Software Development project, Data Structures, Algorithm Design & Analysis, Digital Logic Design, Computer Network Protocols & Applications.

Diploma, Centennial College, Scarborough, ON

January 2016 — June 2017

Diploma in the Electronics Engineering Technician Program

Relevant Coursework: C/C++ Programming, Micro-controller Programming & Interfacing, Digital Systems, RF Communications, System Integration, Quality Control & Technician Project, Electronics Circuits, Electric Circuits.

Secondary School certificate, Rainbow College Boarding School, Maba, Ogun State, Nigeria

September 2009 — April 2015

- Completed my WAEC with 9/9 distinctions
- Captained the Rainbow College football team in 2015
- Ran track for the Rainbow college track team and won silver in 400m at the AISEN Athletics Festival in 2014
- Was a member of the drama club from 2012-2014

Employment History

Smartphone Repair Technician , Samsung Canada, Toronto, ON

November 2017 — November 2018

- Received training on how to review technical documentation to complete maintenance and repair of various Samsung smartphone models
- Completed partial or full dismantling of phones to quickly repair or replace defective components and restore functionality.
- Maintained inventory of repair supplies and ordered parts as needed.
- Assessed operating conditions and adjusted settings to maximize phone performance and battery longevity.
- Conducted diagnostic procedures to determine the root cause of customer problems and provide accurate repair recommendations to the customer.
- Reported issues to my supervisors so that effective resolutions could be immediately put into place.

Neighborhood Canvasser , Toronto Star, Toronto, ON

September 2016 — December 2016

- Recite and memorize the newspaper sales scripts
- Went door to door to present offers to new and existing clients
- Got information from potential contacts and customers for tracking, such as contact details and signatures
- Meet every day and weekly quotas consistently

Projects

Portfolio, Reactjs, SCSS

- To practice my web development skills I used React and SCSS to build my entire portfolio website.

Express Parking, Java, Swing

- Designed and developed a parking booking and management application that automates the routine process of booking and managing parking spaces by users and relevant parking authorities.

TAB2XML, Java, JavaFX

- Developed sheet music playing and viewing features for TAB2XML, a Java and Gradle based tool that enables users to play and view music from musical tablature as well as convert it to MusicXML format.

NLP for Software Engineering, Python, Jupyter Notebook

- Created a Jupyter project which uses natural language processing to analyze app reviews from the google play store in order to generate bug reports and improve user experience.

Leadership

Head Boy, Rainbow College

- Was the Rainbow college class of 2015 head boy and in charge of the overall well-being and representation of over 800 students.
